IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of: **Nick Bromer**Serial No.: **10/619,294**Group Art Unit: **2644**Filed: **7/15/2003**Examiner: **Dionne Pendleton**For: **Large-Diameter Arcuate Speaker****AMENDMENT**Commissioner for Patents, P.O. Box 1450
Alexandria, VA 22313-1450Date: **March 15, 2007**

Madam:

This paper is in response to the Office Action mailed on February 8, 2007. No fee is due.

The specification is further amended to correct typographic and calculation errors. (The specification was earlier amended in the paper of October 11, 2006.)

The amendment in the paragraph starting at page 9, line 10 is supported at the bottom of page 7, which describes the same speaker arrangement (a semicircle with twelve 6.5-inch speakers) but with the correct term "radius" instead of the incorrect "diameter" in the paragraph on page 9. The interior radius is corrected also. This change is further supported by geometry (the Examiner is invited to experiment with coins and a ruler to verify this) and the Applicant will supply further support if requested.

The paragraph at page 9, line 19 is amended to add "arcuate" in accordance with the latest previous amendment to the claims, for which the Examiner is again thanked.

The claims are amended as discussed in the Remarks below.

A proposed drawing change, consisting of one revised sheet and one new sheet, is attached. No new matter is entered. Approval is requested. The changes are discussed below.
